"Here let the press the people's rights maintain, Unawed by influence and unbought by gain."

THE DAILY AND WEEKLY STATE SENTINEL are the recog nized organs of the Democracy of Indiana. As it has in the past, the SENTINEL will continue to advocate those principles and measures which are best calculated to advance the happiness, the prosperity and the freedom of the people from all unjust and unnecessary restraints. While cheerfully sustaining the Government as loyal eitizens should, the Szyriszi will vigilantly watch all en-croachments upon popular rights and the true principles of constitutional liberty. The freedom of speech and the ter what may be the apology therefor, from that day dates the decline of American liberty. In order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty to ourselves and posterity, the Sentinez will fearlessly scrutinize and approve or condemn, as it believes the public
good requires, all measures of the State and National Administrations. It will ever keep in view the distinction between supporting the Government and the venal acts each other for National troops, attacked each of those who represent the Government. And we appeal for other sharply, fought, and rapidly fled after a the support of all who desire to maintain a pure Constitutional Government, and continue for our selves and our postional Government, and continue for ourselves and our pos-terity the glorious heritage of free institutions, won by the valor and framed by the wisdom and integrity of the men who pledged their lives, their fortunes and their sacred bonors for liberty and independence. honors for liberty and independence.

AT LITTLES HOTEL.

Where he will be happy to meet all those afflicted withay kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Comment to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cired, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to die.

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself.

For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the only possible plan to ascertain the true cause of disease.

The Dr. can show more certificates of cures, sworn to by patients, than any other physician ic America.

Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and its true cause. He has no puffed nostrums that will cure all diseases.

The diseases of Women and Children receive his particular attention.

To Males and Females of Youth and Maturity.

Seminal Weakness and Spermatorrhora. It is a melancholy fact that thousands who are suffering under pale and insatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease insidiously creeping on, every faculty is shattered, constitution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical ireatment. The earlier this is sought the easier the cure. Generally the first symptoms in males, are noctural and sometimes diurnal emissions. In either sex we find weakness of the stomach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and hectic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian Herb Doctor and his new method of cure. He uses an instrument that will arrest the disease instantly, and without any exposure to the patient.

All those who call may depend upon an honest, candid and true statement of their case, and the possibility of his giving them relief—gratis.

*The Doctor permanently cures the Piles and defeat the matter.
